Logline :

In a dystopian future where minds are imprisoned in digital simulations, a runaway engineer hacks into the system to find the woman he loves, but their connection threatens to expose his location.

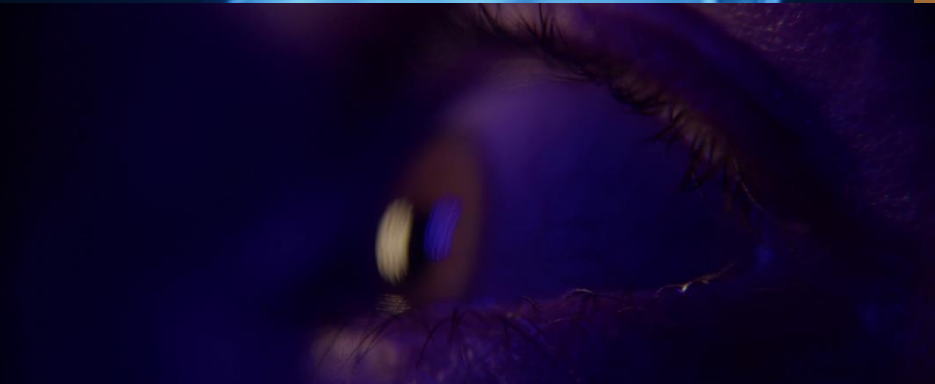

SYNOPSIS :

In a dystopian future ruled by SYNAPSE, a corporation that controls society through implant technology, a former employee Leo lives in isolation, obsessed with finding his wife Anna, who was taken after they exposed the company's dark secrets. Leo hacks into the neural network and reconnects with Anna who's held captive at SYNAPSE corporation in simulation, experiencing her senses and even influencing her movements. As Synapse tracks his location, Leo shares one final, synchronized dance with Anna before his friend Harry pulls him from the system to escape. The connection is severed, but it sparks a flicker of memory in Anna.

A red film strip graphic runs diagonally from the top-left to the bottom-left, and another runs vertically along the right edge. Both strips feature a series of black rectangular sprocket holes.

Stills from the Film

Director's Statement

Synapse is a story rooted in distance, longing and separation. These are the themes that resonate deeply with me as a film student living far from home. Emotional distance forms the core of this film: two souls who are pulled apart not by choice, but by forces larger than themselves. The future setting is just my ode to films like Blade Runner & TRON.

In a future where technology connects everything, Synapse asks whether true human connection can still survive.

The film explores a world where neural implants have erased privacy and corporations have become the new dictators. At its heart, though, it's an intimate story of two people fighting against a system that is determined to keep them apart.

What began as a concept about a man reaching out to an ex through an implant evolved into a larger plot of personal loss and technological control.

This project marks my first time building a world using Unreal Engine, and creating a futuristic city from scratch has been an ambitious challenge, one that I am proud of. Through this film, I aim to showcase my storytelling ability alongside my developing skills in directing, editing, and VFX. As a team, we are stepping into unfamiliar territory, experimenting, learning, and pushing beyond our comfort zones. Synapse represents not just a story of separation, but also our collective journey. A mix of imagination, craft, and growth as emerging filmmakers.

Yash Mavlankar

Writer/ Director/ Editor/ VFX

Yash Mavlankar is a Director/Editor currently based in London, studying Film Production at SAE Institute. He is a filmmaker and editor with a deep love for visual storytelling, especially when it comes to crafting emotionally charged narratives and high-impact edits.

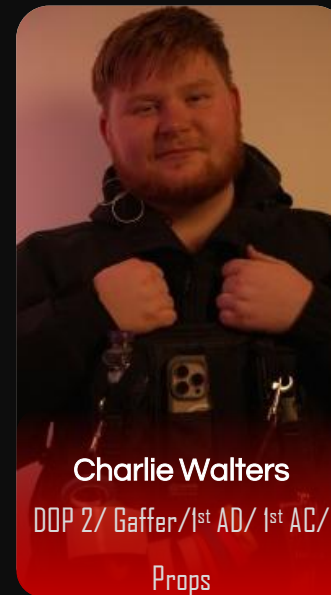

His inspirations are Blade Runner & TRON.

Jordan Fox

DOP I/ CEO of Synapse

Jordan Fox is a Director of Photography from Sheffield, driven by a lifelong passion for film and visual storytelling. From a young age, he has been fascinated by the power of composition and the emotional depth a shot can convey. He is currently studying Film Production in London, developing his craft and refining his cinematic voice. His favourite film, Nightcrawler, continues to inspire his bold, atmospheric approach to cinematography.

Charlie Walters

DOP 2/ Gaffer/ 1st AD/ 1st AC/

Props

Charlie Richmond is a gaffer/cinematographer who's worked on various projects from dramas to action to musicals to sci-fi. He is 21 years old from Surrey, England.

Favourite film is: Prisoners.

Joseph. P. Kennedy

Composer/ Actor as Leo

Joseph P Kennedy is an actor based in Oxford. As a child, he was a member of Playbox theatre. Performing in musicals and theatre performances. He is a member of the National Youth Theatre and currently studies film production at the SAE Institute in London. He creates short films with his fellow acting friends to keep his passion alive.

Hannah. L. Saxton

Anna

Hannah Louise Saxton is an actress based just outside of London. She trained in LA at The American Academy of Dramatic Arts. Since graduating she has toured Italy with a TIE company, filmed many short films and commercials and continues to explore her creativity whilst creating fun projects along the way.

Charlie Walters

Harry

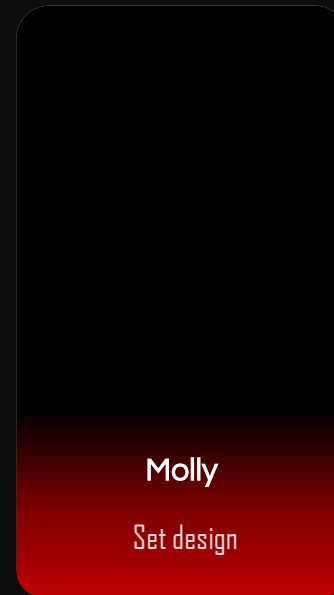

Sean McGrath is an actor based in Upminster. He is a former Royal Marines Commando with a passion for comedy. He creates his own comedy skits for TikTok and Instagram, appealing to the gaming audience. With a fantastic moustache and charming personality, Sean really has it all.

David Ihor

Production Assistant

David Igor Rummyantsev, 24 years old, born and raised in Lviv, Ukraine. I've always been fascinated by beauty. Cinema showed me that beauty can be captured — and that only film can truly explain what beauty is.
Favorite film era: The French New Wave.
